# CHRISTINA BESNARD

Front End Software Engineer

christina.ad.besnard@gmail.com
github.com/chrxtina

## EXPERIENCE

### Kaba Labs Inc, Remote —

*Front End Engineer*                                    Oct 2024 - July 2025

Developed privacy-first AI browser features using Transformers.js for text and image transformation and real-time object detection directly within webpages. Created an interactive 3D visualization of user history embeddings.

Focus: Browser AI, Local Inference, Data Visualization

### Capital One, Boston —

*Senior Software Engineer*                              Jan 2020 - June 2021
*Front End Software Engineer*                           July 2018 - Dec 2019

Worked on an open-source container orchestration platform called Critical Stack using React. Partnered with product, design, and backend teams to scope, build, and launch new features. Built reusable front-end components and abstractions.

Focus: Kubernetes, container technologies

### GetFused, Boston —

*Front End Engineer I*                                  Dec 2016 - June 2018

Built responsive, adaptive and RESS sites using HTML/CSS/JS and deploying to a CMS platform.

Focus: CSS pre-processing, cross browser compatibility, page load optimization

### General Assembly, Boston —

*Web Developer in Training*                             Aug 2016 - Nov 2016

Participated in a 12-week intensive course that teaches programming fundamentals and full-stack web development. Worked on individual as well as team-based projects utilizing a variety of tools and frameworks.

Focus: Git/Github version control, SPAs

## EDUCATION

### University of California, Irvine —

B.S. Biological Sciences                                Sept 2007 - June 2011
*Magna Cum Laude*
